Emmanuel Bernal Velázquez

Frontend Developer

LinkedIn - Behance - Github - Codepen - Email
Calimaya, Mexico

I'm a Frontend Developer and UI Designer specializing in web application development using JavaScript, TypeScript, Angular, HTML, and CSS. I am passionate about programming and known for my creativity, punctuality, and responsibility. I excel in collaborative team environments and consistently demonstrate my commitment to achieving goals and overcoming challenges.

I have a personal project called "TheFrontdev," which is dedicated to sharing knowledge and continuous learning within the development community through Instagram.
